02 FEATURES

- [x] Solvent-resistant type, labelled economical by the maker

Specifications are taken from the manufacturer's published data and may change. Confirm the configuration for your job with Sunstar before ordering.

- Moulded in a large format, so many shapes and lengths can be made
- Single-layer, multi-layer and mixed-hardness builds
- Double and triple layers combine soft and hard material, so the edge curls less and screen pressure can be lower
- Square blade has several sharp edges and follows uneven surfaces
- Curved tip protects the screen and extends its life

03 APPLICATIONS

Precision printing | Precision circuit boards (double and triple layer) | Solar panels and precision text (square) | Cylindrical printing and jobs that need higher ink output (curved tip)
